Challenge: Incorporating Various Diamonds

Alison provided an interesting opportunity: to incorporate two similar, yet noticeably different shape and size primary diamonds, along with several accent diamonds.

Alison: *“Cady was so easy to work with in creating my new ring. She listened to what was important to me in combining the diamonds from my engagement ring and wedding band with my grandmother’s engagement ring diamond. She presented me with several ideas, and we needed to go no further because I fell in love with her very first design. Cady stayed within my budget and needed timeframe and created a stunning work of jewelry art I will cherish.”*

Now’s the Time—Gift Ideas for Christmas

From money clips, ornaments, custom charms, stretch bracelets, earrings, coaster sets and of course the finer jewelry, we can work together to reflect your gift recipient’s personal tastes, style and interests, made through casting, 3-D printing, laser cutting or etching, in a variety of materials such as porcelain, wood, stone or several kinds of metals. I have ideas for all ages and genders. Prices start at \$20. Now’s the time to start ordering!

Know Someone Tying the Knot?

In addition to the All-Important Rings, there are plenty of other ways to celebrate. I recently helped one bride order custom jewelry for her bridesmaids and mothers in the same materials, but various designs to suit each wearer. This matched their clothing concept of same fabrics but varying designs that best complemented each wearer. They wore their jewelry at the wedding ceremony, and then each took home a fantastic memory keepsake. For another wedding gift, the couple received this porcelain bell with a hope chest charm containing a pearl inside.
